INLEDNING

Denna reservdelskatalog gäller för Saabs bilmodeller 93, 95 och 96 två-takts version. Katalogen är indelad i grupperna 0-10. Grupperna upptar ordinarie reservdelar för ovan angivna bilmodeller samt för GT 750 och Monte Carlo 850 (Saab Sport). Grupp 0 upptar allmänt, nummerregister och satsregister, grupp 1 "verktyg" dvs. specialverktyg avsedda för service- och reparationsarbeten. Dessutom har grupp 10 införts för "diverse". Katalogens inledning motsvarar den rekommendation Motorbranschens Arbetsgivareförbund givit för reservdelskataloger etc. Beträffande katalogens användning hänvisar vi till anvisningsbladen i grupp 0. Katalogen har lösbladssystem. Rekvisitionsnummer: 787930. Den hålls aktuell vad avser ändringar och rättelser i form av utbytes- eller tillkommande blad. Vid behov lämnas speciella upplysningar betr. reservdelar via "Spare Parts Information".

I katalogen har ej hänsyn tagits till namnändring från "SAAB Sport" till "Monte Carlo 850" fr.o.m. 1966 års modell.

HÅLL ALLTID ER KATALOG AKTUELL GENOM ATT SÄTTA IN NYA OCH ÄNDRADE BLAD!
Notera insättningen på katalogens uppföljningsblad.

Vid beställning av reservdelar till viss bil skall alltid typbeteckning, chassinummer och/eller motornummer angivas. (Se instruktionsboken.)

ANVISNINGAR

Varje grupps omfattning framgår av innehållsförteckningen. För att underlätta återfinnandet av en reservdel, vars reservdelsnummer är känt, finns under grupp 0 ett nummerregister. Detta hänvisar till den grupp och sida inom gruppen, där reservdelen återfinnes. Katalogens uppställning bygger på "masterprincipen" vilket innebär att reservdelar av ett och samma slag i möjligaste mån behandlas i ett sammanhang.

För att ange en reservdels omfattning med avseende på ingående enheter och detaljer, har dessa förskjutits ett steg åt höger i förhållande till den enhet i vilken de ingår. Den överordnade enhetens benämning är understruken.

Av exemplet framgår att underordnade enheter i sin tur har ingående detaljer. Detta har markerats genom en andra, i vissa fall även en tredje, stegförskjutning.

Om någon reservdel är speciell för en underversion av de vagntyper som katalogen behandlar är detta angivet.

Ex. Gaspedal R.H.D. (för högerstyrd bil)
Lamell, sax (för vagn med Saxomat kopplings-manövrering)

Enligt vad som tidigare sagts kommer katalogen att hållas aktuell medelst ändrade resp. tillkommande blad. De ändrade bladen har ny utgivningsmånad, de är dessutom försedda med markering * i anmärkningskolumnen för den ändrade raden ifråga.

May 1971

Aktuellt blad med utgivningsmånad May 1971 visar ändring för "Packning" jämfört med tidigare utgåva. Vid nästa utgåva då annan ändring utförts utgår * för rad "Packning".

För reservdelar med Bosch-beteckning har i de flesta fall två nummer angivits, exempelvis WMS 25 L 30. 1 200 101 625. Det förstnämnda numret WMS 25 L 30 är hänfört till ett äldre nummersystem och ersatt av 1 200 101 625.

För nytillkomna reservdelar gällande 1968 års modell finns extra kolumner. Tidigare reservdelar som även gäller 1968 års modell har införts i dessa kolumner, se nedanstående exempel. När en sida saknar kolumner för 1966, 1967 och 1968 års modeller betyder detta att reservdelar för 96(5), 96 SP(5) samt 95(5) även gäller 1966, 1967 och 1968 års modeller. Samma är förhållandet när en sida har kolumner för 1967 års modell men saknar sådana för 1968 års modeller.

INTRODUCTION

This spare parts catalogue is valid for car models 93, 95 and 96, two-stroke version. The catalogue is containing the groups 0-10. The groups listing ordinary spare parts for the models mentioned above as well as the GT 750, and for Monte Carlo 850 (the Saab Sport). Group 0 comprises General, Numerical index and List of complete sets, while groupe 1 covers "tools", i.e. special tools designed for servicing and repair jobs. In addition, group 10 is included to cover "miscellaneous". The ground of the divisions corresponds to the recommendations issued by the Swedish Automobile Servicing and Retailing Employers' Association in respect of spare parts catalogues etc. Concerning the use of the catalogue reference should be made to the following pages in Group 0. The catalogue has loose-leaf system. The ordering number is 787930. The edition is kept up-to-date in respect of amendments and corrections by means of amendment sheets or additional sheets. If needed special information concerning spare parts will be given via "Spare Parts Information".

As from model 1966, the "Saab Sport" is called "Monte Carlo 850". This has not been considered in the catalogue.

KEEP YOUR CATALOGUE UP-TO-DATE BY INSERTING ADDITIONAL AND REPLACEMENT PAGES! Note inserting date on the up-todate-leaf.

When ordering spare parts for a certain car, always quote the car's type designation, chassis number and/or engine number. (See Owner's Manual.)

DIRECTIONS

The coverage of each group is indicated by the table of contents. To make it easier to locate a spare part without knowing the spare-part number, a number register is provided under group 0. This register states the group and page within that group where the spare part is found. The arrangement of the catalog is based on the "master principle", implying that spare parts of one and the same kind are treated together whenever possible.

To indicate the extent of a spare part with regard to included sub-assemblies and items, these are displaced one step to the right in relation to the assembly to which they belong. The description of the superior assembly is underlined.

Ex.

From the above example it will be noted that sub-assemblies may also have included items. This is indicated by a second, and where necessary also a third, step to the right.

If a certain spare part is peculiar to a sub-version of the types of cars covered by the catalog, this is clearly stated.

Ex. Accelerator pedal R.H.D. (for car with righthand drive)
Clutch, Saxomat (for car with Saxomat clutch operation)

In accordance with what has been said earlier, the catalogue will be kept up-to-date by means of amendment sheets or additional sheets. The amended pages bear a new month of issue, and are also marked with an asterisk (*) in the remarks column to indicate the altered line.

Ex.

Gasket	Packning	39	73 25 889					1	1	1	1	1	1	Ch. 393.526-, 96(5). 35.546-, 95(5).	*

Spring washer	Fjaderbricka	41	79 33 845					3	3	3	3	3	3		

May 1971

The specimen sheet, issued in the month of May, 1971, shows the alteration for "Gasket" in comparison with the earlier edition. In the next edition, when a further amendment has been introduced, the asterisk (*) for the "Gasket" line will be omitted.

For spare parts with a Bosch reference, two numbers are quoted in the majority of cases, e.g. WMS 25 L 30. 1 200 101 625. The first number, WMS 25 L 30, refers to an older number system and has been superseded by number 1 200 101 625.

For new spare parts added and concerning the 1968 model, there are extra columns. Those former spare parts which apply to the 1968 model too, have been inserted in the said columns, see the example below. When a page has no columns for the 1966, 1967 and 1968 models, this means that spare parts for the 96(5), 96 SP(5) and 95(5) apply to the 1966, 1967 and 1968 models as well. The case is similar when a page has columns for the 1967 model but not for the 1968 models.

EINLEITUNG

Dieser Ersatzteile-Katalog gilt für Wagen der Modelle Saab 93, 95 und 96, Zweitaktversion. Der Katalog enthält eine Gruppeneinteilung von 0-10. Die Gruppen enthalten die gewöhnlichen Ersatzteile für die oben angegebenen Modelle sowie die für GT 750 und Monte Carlo 850 (Saab Sport). Gruppe 0 enthält Verzeichnisse vom Allgemeinen Nummer- und Satzregister. Gruppe 1 "Werkzeuge", d.h. Spezialwerkzeuge für Service und Werkstattarbeiten. Gruppe 10 ist für "Verschiedenes" vorbehalten. Die Einteilung des Katalogs entspricht den Empfehlungen des Schwedischen Arbeitgeberverbands für Kraftfahrzeuggewerbe und -Handel für Ersatzteile-Kataloge usw. Bezüglich der Benutzung des Katalogs verweisen wir auf das Anweisungsblatt in der Gruppe 0. Der Katalog, hat ein loses „Blättersystem". Bestellnummer 787930. Die genannte Ausgabe wird durch Austausch- und Ergänzungsblätter auf dem Laufenden gehalten. Bei Bedarf wird Sonderauskunft über Ersatzteile via "Spare Parts Information" gegeben.

Der "Saab Sport" wird ab dem Baujahr 1966 "Monte Carlo 850" genannt. Es ist dies im Katalog nicht berücksichtigt worden.

IHREN KATALOG IMMER, DURCH EINSETZUNG DER NEUEN UND GEÄNDERTEN BLÄTTERN, AKTUELL HALTEN. Die neueingesetzen Blätter auf dem "Auf-dem-Laufenden-Blatt" des Katalogs notieren.

Bei Bestellung von Ersatzteilen für einen bestimmten Wagen ist stets die Typenbezeichnung, Fahrgestellnummer und/oder Motornummer anzugeben. (Siehe Bedienungshandbuch.)

HANDHABUNG DES KATALOGES

Der Umfang jeder Gruppe ergibt sich aus dem Inhaltsverzeichnis. Um das Auffinden eines Ersatzteiles, dessen Ersatzteilenummer bekannt ist, zu erleichtern, ist in Gruppe 0 ein Nummern-Verzeichnis mit enthalten. Dieses verweist auf die Gruppe und die Seite, wo der Ersatzteil angegeben ist. Der Katalog ist gemäss dem "Masterprinzip" aufgebaut, d.h. Ersatzteile ein und derselben Art werden möglichst zusammengefasst.

Die zu einem bestimmten Ersatzteil gehörenden Einheiten und Teile sind etwas eingerückt unter der Hauptbezeichnung dargestellt. Die Hauptbezeichnung ist unterstrichen.

Beispiel:

DESCRIPTION	BENÄMNING	FIG. POS.	PART NO. DET. NR
Carburetor assy.	Förgasare kpl.	1	
Carburetor assy.	Förgasare kpl.	1	
Carburetor assy.	Förgasare kpl.	1

.Float chamber cover	.Flottörhuslock	2	
..Vent valve	..Luftningsventil	3	
.Float chamber cover	.Flottörhuslock	2	
..Vent valve	..Luftningsventil	3	

Aus dem Beispiel ergibt sich, dass auch untergeordnete Teile ihrerseits aus mehreren Teilen bestehen können. Dies wird durch eine zweite - in gewissen Fällen dazu eine dritte - eingerückte Stufe gekennzeichnet.

Wenn ein Ersatzteil für eine bestimmte Unter-Version der vom Katalog umfassten Wagen-Modelle vorgesehen ist, ist dies angegeben.

Beispiel: Accelerator pedal R.H.D. (for car with righthand drive)
Clutch disk, Saxomat (for car with Saxomat clutch operation)

Wie erwähnt, wird der Katalog durch Änderungs- und Ergänzungsblätter auf dem Laufenden gehalten. Die Änderungsblätter werden mit dem Ausgabe-Monat und -Jahr, sowie mit einem Sternzeichen (*) in der Spalte "Bemerkungen" für die geänderte Zeile, versehen.

Beispiel:

Gasket	Packning	39	73 25 888					1	1	1	1	1	1	Ch. 393.526-, 96(5). 35.546-, 95(5).	*

May 1971

Das obige Blatt mit dem Ausgabedatum May 1971 enthält eine Änderung für "Gasket" gegenüber der früheren Ausgabe. Bei der nächsten Ausgabe, die eine andere Änderung betrifft, fällt für die Zeile "Gasket" das * fort.

Ersatzteile mit Bosch-Bezeichnungen haben in den meisten Fällen 2 Nummern, z.B. WMS 25 L 30. 1 200 101 625. Die erste Bezeichnung WMS 25 L 30 gehört einem älteren Bezeichnungssystem an und ist durch die Nr. 1 200 101 625 ersetzt worden.

Für neu hinzugekommene Ersatzteile für Modelle des Baujahrs 1968 gibt es zusätzliche Kolumnen. Diejenigen der älteren Ersatzteile, die sich ebenso auf das Baujahr 1968 beziehen, sind in den genannten Kolumnen aufgeführt worden, siehe Beispiel unten. Wenn ein Blatt keine Kolumnen für die Baujahre 1966, 1967 und 1968 besitzt, bedeutet dies dass Ersatzteile für 96(5), 96 SP(5) und 95(5) auch für die Baujahre 1966, 1967 und 1968 gelten. Dies trifft auch zu, wenn ein Blatt für das Baujahr 1967 Kolumnen besitzt, dagegen solche für das Baujahr 1968 vermisst.

INTRODUCTION

Ce catalogue de pièces de rechange est valable pour les modèles des voitures 93, 95 et 96, version deux temps. Le catalogue comprend les groups 0-10, qui concernent les pièces de rechange ordinaires pour les types de voitures précités ainsi que pour la GT 750 et Monte Carlo 850 (la Saab Sport). Le groupe 0 comporte un index de jeux complets et un index numerique. Le groupe 1 concerne la rubrique "outillage", c'est-à-dire les outils spéciaux prévus pour les travaux d'entretien et de réparation. Le groupe 10 concerne la rubrique "divers". Le principe de la division du catalogue est conforme à la recommandation présentée par la Fédération Patronale Suédoise de l'Entretien et du Commerce de l'Automobile en ce qui concerne les catalogues de pièces de rechange etc. Pour ce qui est du mode d'emploi du présent catalogue, nous renvoyons aux pages suivantes. Le catalogue est à feuilles volantes, avec No. de commande 787930. Il est tenue à jour, en ce qui concerne les modifications et les rectifications, à l'aide de feuillets de remplacement ou de feuillets complémentaires. L'information spéciale nécessaire est transmise via les "Spare Parts Information".

A partir du modèle 1966 la "Saab Sport" s'appelle "Monte Carlo 850". Cela n'a pas été considéré dans le catalogue.

MAINTENIR LE CATALOGUE AU JOUR EN Y INSERANT LES FEUILLETS DE REMPLACEMENT ET COMPLEMENTAIRES CORRESPONDANTS. Faire l'annotation correspondante sur le feuillet registre de modifications.

A la commande de pièces de rechange pour une voiture donnée, il convient de toujours spécifier la désignation du type de la voiture, le numéro du châssis et/ou le numéro du moteur. (Voir manuel d'instructions.)

INSTRUCTIONS

Le contenu de chaque groupe ressort de la table des matières. Le groupe 0 comprend un index numérique destiné à faciliter l'identification d'une pièce de recharge dont le numéro de pièce est connu. Cet index renvoie au groupe et à la page du groupe où vous retrouvez la pièce de rechange. L'ordonnancement du catalogue est agencé selon le principe des "ensembles", ce qui veut dire que les pièces de rechange de même catégorie sont, dans la mesure du possible, présentées d'un seul tenant.

Pour indiquer la composition d'une pièce de rechange quant aux sous-ensembles et pièces qui en font partie, ceux-ci ont été décalés d'un échelon vers la droite par rapport à l'ensemble dont ils sont un constituant. La désignation de l'ensemble principal est soulignée.

De l'exemple il ressort que les sous-ensembles comportent à leur tour des pièces constituantes. Ceci a été indiqué par un deuxième décalage, et dans certains cas même un troisième.

Si une pièce de rechange est particulière à une variante des types de voitures couverts par le catalogue, mention spéciale en est faite.

Conformément à ce qui a été dit plus haut, l'édition distribuée en catalogue sera tenue à jour à l'aide de feuillets révisés ou de feuillets complémentaires. Les feuillets révisés portent la mention du nouveau mois de leur publication et comportent en outre un astérisque * dans la colonne des remarques, en regard de la ligne ayant fait l'objet d'une revision.

Ex.

Gasket	Packning	39	73 25 888											1	1	1	1	1	1					Ch. 293.526-, 96(5). 35.546-, 95(5).	*

Spring washer	Fjäderbricka	41	79 33 849											3	3	3	3	3	3						

May 1971

Le feuillet ci-dessus publié en May 1971 présente une modification à "Gasket" par rapport à l'édition précédente. Lors de la prochaine édition, à l'occasion d'une autre modification, l'astérisque en regard de la ligne "Gasket" sera supprimé.

Pour les pièces de rechange comportant la désignation "Bosch", deux numéros ont été indiqués dans la plupart des cas, par exemple: WMS 25 L 30. 1 200 101 625. Le premier numéro WMS 25 L 30 se rapporte à une numérotation ancienne et est remplacé par 1 200 101 625.

Pour les pièces de rechange attribuées nouvellement et concernant le modèle 1968, il y a des colonnes supplémentaires. Les pièces de rechange antérieures ont été - si existant toujours sur les Saab du modèle 1968 - inscrites dans les dites colonnes, voir l'exemple ci-dessous. Si une page n'a pas de colonnes pour les modèles 1966, 1967 et 1968, cela signifie que les pièces de rechange des 96(5), 96 SP(5) et 95(5) se trouvent aussi sur les modèles 1966, 1967 et 1968. Cela est le cas aussi si une page a des colonnes pour le modèle 1967 mais manque de colonnes pour les modèles 1968.

INTRODUCCION

Este catálogo de piezas de recambio es válido para los modelos de los coches 93, 95 y 96, versión dos tiempos. El catálogo comprende los grupos 0-10 que contienen las piezas de recambio ordinarias para los modelos antes indicados y para el GT 750 y el Monte Carlo 850 (Saab Sport). El grupo 0 contiene un registro de juegos y un registro numérico, y el grupo 1 "herramientas", o sea herramientas especiales para los trabajos de servicio y reparación. Además figura el grupo 10 en concepto de "varios".
La división del catálogo corresponde a las recomendaciones que la Asociación Patronal Sueca del Servicio y del Comerico de Automóviles ha dado para catálogos de piezas de recambio, etc. En lo que se refiere al uso del catálogo, sírvase consultar las páginas siguientes. El catálogo es de hojas sueltas y tiene el No. 787930, siendo mantenido al día en lo que se refiera a modificaciones y correcciones por medio de hojas de sustitución y adicionales. La información especial necesaria es comunicada mediante los "Spare Parts Information".

A partir del modelo del año 1966, el "Saab Sport" se llama "Monte Carlo 850". Esto no se ha tenido en cuenta en el catálogo.

MANTENER EL CATALOGO CONSTANTEMENTE AL DIA INSERTANDO EN EL MISMO LAS HOJAS ADICIONALES Y SUBSTITUTIVAS CORRESPONDIENTES. Anotar la inserción en la hoja registro de modificaciones del catálogo.

Al solicitar piezas de recambio para un cierto automóvil, deberá indicarse siempre su tipo, número de chasis y/o número de motor. (Ver el Manual de instrucciones.)

INSTRUCCIÓNES

Lo que abárca cada grupo se indica en el sumario. Para facilitar la localización de una pieza de recambio cuyo número de pieza es conocido, hay en el grupo 0 un registro numérico. Este se refiere al grupo y página dentro del grupo, en la cual se encuentra la pieza de recambio. La disposición del catálogo se ha hecho siguiendo el "principio maestro", o sea que las piezas de recambio de la misma clase se han dispuesto en lo posible de una manera relacionada.

Para indicar la composición de una piezu de recambio en lo que se refiere a las unidades y detalles de que consta, se han desplazado estos últimos un paso a la derecha con respecto a la unidad a que pertenecen. La denominación de la unidad está subrayada.

Ejemplo:

DESCRIPTION	BENÄMNING	FIG. POS.	PART NO. DET. NR
Carburetor assy	Förgasare kpl.	1	
Carburetor assy	Förgasare kpl.	1	
Carburetor assy	Förgasare kpl.	1	
Carburetor assy	Förgasare kpl.	1

.Float chamber cover	.Flottörhuslock	2	
..Vent valve	..Luftningsventil	3	
.Float chamber cover	.Flottörhuslock	2	
..Vent valve	..Luftningsventil	3	

En el ejemplo puede verse que las unidades subordinadas a su vez tienen las piezas de que constan. Esto se ha marcado mediante un segundo, y en ciertos casos tercer, desplazamiento hacia la derecha.

Si alguna pieza de recambio es especial para alguna sub-versión de los tipos de automóviles que trata el catálogo, esto queda indicado.

Ejemplo: Accelerator pedal R.H.D. (for car with righthand drive)
Clutch disk, Saxomat (for car with Saxomat clutch operation)

Tal como se ha indicado con anterioridad, la edición con carpeta de catálogo se mantendrá al día con hojas corregidas y hojas adicionales.
Las hojas corregidas estarán provistas de un nuevo mes de edición y estarán provistas además de la marca * en la columna de observaciones para la línea corregida.

Ejemplo:

Gasket	Packning	39	73 25 889					1	1	1	1	1	1	Ch. 393.526–, 96(5). 35.546–, 95(5).	*

Spring washer	Fjäderbricka	41	79 33 849					3	3	3	3	3	3		

May 1971

La hoja actual con el mes de edición May 1971 muestra una modificación en "Gasket" en comparación con la hoja anterior. – En la próxima edición en la que se introduce otra corrección se elimina el signo * en la línea "Gasket".

En las piezas de recambio con la designación Bosch, en la mayoría de los casos se han dado dos números, ejemplo: WMS 25 L 30. 1 200 101 625. El número citado en primer lugar WMS 25 L 30 se refiere al sistema antiguo de numeración y ha sido sustituído por 1 200 101 625.

Para las piezas de recambio nuevas añadidas y que se refieren al modelo del año 1968, hay columnas adicionales. Las piezas de recambio anteriores concernientes también al modelo del año 1968, se encuentran en las columnas mencionadas, ver el ejemplo más abajo. Una página sino columnas para los modelos 1966, 1967 y 1968, esto significa que las piezas de recambio para el 96(5), 96 SP(5) y 95(5) se refieren también a los modelos 1966, 1967 y 1968. El caso es el mismo, si una página tiene columnas para el modelo del año 1967 pero no para los modelos 1968.

The upholstery are expected to be kept in stock at least two years after we have ceased mounting the particular upholstery in the serial production. Cloth, coated fabrics and plastic strips, however, will still be stocked and available for purchase by the meter.

Klädslarna beräknas finnas i lager minst två år efter det vi slutat montera dem i serieproduktionen. Tyg, plast och keder kommer dock att lagerföras såsom metervara.
