Group 0 includes General and Complete sets, group 1 includes Tools, i.e. special tools intended for maintenance and repair work. Group 10 includes numerical index. The catalogue is divided into groups according to recommendations given by the Swedish Automobile Servicing and Retailing Employers' Association in respect of spare parts catalogues, workshop manuals, etc.

The spare parts catalogue is supplied only in microfiche edition. The ordering number is 400028 and the catalogue is kept up-to-date by additional and replacement fiches. When necessary, special "Spare Parts Information" will be sent out.

When ordering spare parts for a certain Saab car, always state the chassis number and/or engine- or gearbox number of the particular car.

Parts without pos. No. in the pictures are deleted.

c Master index

The catalogue is divided into ten main groups.

- 0 General, Complete sets
- 1 Tools
- 2 Engine
- 3 Electrical system, Instruments
- 4 Transmission
- 5 Brakes
- 6 Front assembly, Steering
- 7 Suspension, Wheels
- 8 Body
- 9 Accessories
- 10 Numerical index

Each microfiche square has a Master index listing the coordinates at which each main group commences.

d Group index

The master index is divided into subgroups. The first page of each main group contains a list of contents indicating the pages on which larger units or assemblies may be found. The group index is located on each microfiche square immediately below the master index. The group index lists the coordinates at which each subgroup commences.

4. Numerical index
New and discontinued parts index

The last fiche in each microfiche batch always contains the catalogue numerical index. The index is in tabular form and divided into column "Part No.", "Gr.", "Page" and "Grid". Part numbers are listed in numerical sequence with references to the catalogue group and page and microfiche coordinates where the part can be found. The numerical index is especially useful in cases where only the part number is known, but additional information is required for ordering numbers.

When the catalogue is revised and updated (microfiche cards are exchanged), a list is given of all the parts which have been added to or deleted from the catalogue since the previous revision. This list is located immediately after the numerical index and contains "New articles" and "Deleted parts" in numerical sequence together with page references and fiche coordinates.

4. Nummerregister

Register för nyttillkomna och utgående artiklar

På sista fichekortet i varje ficesats återfinns alltid katalogens nummerregister. Registret är uppställt i tabellform och indelat i kolumnerna "Art nr", "Gr", "Sida" och "Koord". Artikelnumren är upptagna i nummerordning. Numret hänvisar till den grupp, sida och koordinat där artikeln är upptagen. Nummerregistret kommer särskilt till användning då man endast vet en artikels nummer och vill ha övriga beställningsdata.

I samband med ändring av en katalog (utbyte av ficesats) utlistas alla artiklar, som tillkommit i katalogen respektive utgått sedan föregående utgivning. Denna lista upptar numren i nummerordning med sidnr respektive koordinater angivna och återfinns efter det ordinarie nummerregistret under respektive rubriker "Nya artiklar", "Utgående artiklar".

c Master index – Hauptgruppenregister

Die Ersatzteilliste in zehn Hauptgruppen eingeteilt.

- 0 Allgemeines, Satzlieferungen
- 1 Werkzeug
- 2 Motor
- 3 Elektrische Anlage, Instrumente
- 4 Kraftübertragung
- 5 Bremsen
- 6 Vorderradaufhängung, Lenkung
- 7 Federung, Räder
- 8 Karosserie
- 9 Zubehör
- 10 Nummernregister

Das Hauptgruppenregister ist auf sämtlichen Mikrofiches angegeben und bezeichnet, mit welcher Koordinate jede Hauptgruppe beginnt.

d Group index – Untergruppenregister

Das Hauptgruppenregister ist in Untergruppen aufgeteilt. Die erste Seite jeder Hauptgruppe hat ein Inhaltsverzeichnis, aus dem hervorgeht, auf welcher Seite und Koordinate die größeren Artikeleinheiten angegeben sind.

Das Untergruppenregister ist auf jedem Mikrofiche unmittelbar unter dem Hauptgruppenregister angegeben und bezeichnet, mit welchen Koordinaten die Untergruppen beginnen.

4. Nummernregister

Register für neu hinzugekommene und entfallende Artikel

Das letzte Mikrofiche in jedem Mikrofichesatz enthält immer das Nummernregister der Ersatzteilliste. Das Register ist tabellarisch aufgebaut und in die Spalten „Art.Nr.“, „Gr.“, „Seite“ und „Koord.“ eingeteilt. Die Best.-Nummern sind in numerischer Reihenfolge aufgeführt, und die Nummer verweist auf die Gruppe und Seite der Ersatzteilliste sowie die Mikrofichekoordinate, wo das jeweilige Teil zu finden ist. Das Nummernregister kommt besonders dann zur Anwendung, wenn lediglich die Best.-Nr. eines Teils bekannt ist und die übrigen Bestelldaten benötigt werden.

Im Zusammenhang mit Änderung von einer Ersatzteilliste (Austausch des Mikrofichesatzes) werden sämtliche Artikel aufgeführt, die seit der vorherigen Ausgabe entweder neu hinzugekommen oder entfallen sind. Diese Liste hat ebenfalls numerische Reihenfolge mit Angabe von Seiten-Nr. bzw. Koordinaten, und sie ist im Anschluß an das normale Bestellnummernregister unter den jeweiligen Titeln „Neue Artikel“, „Entfallende Artikel“ aufgeführt.

4. Index numérique

Réglage d'articles nouveaux et d'articles supprimés

La dernière des fiches de chaque ensemble constituant le catalogue est toujours destinée à l'index numérique du catalogue. L'index est en forme de table et divisé dans les colonnes "Art. nr.", "Gr.", "Sida" et "Koord.". Les numéros d'article sont placés en ordre numérique. Le numéro renvoi au groupe, page et coordonnées où l'article en question est catalogué. L'index numérique est d'utilité lorsque seulement le numéro de l'article est connu et que d'autres informations sont désirées pour la commande.

Lors du renouvellement du catalogue (remplacement d'un jeu de fiches), tous les articles qui depuis la dernière édition y ont été inclus ou exclus, sont reportés dans une liste. Cette liste suit l'ordre numérique des articles que comporte, avec mention du numéro de la page et des coordonnées leur correspondant. Elle est placée après l'index numérique ordinaire, sous les titres respectifs "Nya artiklar" (articles nouveaux), "Utgående artiklar" (articles supprimés).

c Master index — índice de grupos

El catálogo está dividido en 10 grupos.

- 0 Generalidades, juegos
- 1 Herramientas
- 2 Motor
- 3 Sistema eléctrico
- 4 Transmisión
- 5 Frenos
- 6 Tren delantero, dirección
- 7 Suspensión, ruedas
- 8 Carrocería
- 9 Accesorios
- 10 Índice numérico

El "Master index" figura sobre todos los cuadros de las fichas y las coordenadas indican dónde comienzan los grupos.

d Group index — índice de subgrupos

El índice de grupos está dividido en subgrupos. En el sumario de la primera página de cada grupo se indican las páginas y las coordenadas de localización los grandes conjuntos de artículos.

El "Group index" figura en todos los cuadros de las fichas, inmediatamente debajo del "Master index", y las coordenadas indican dónde comienzan los subgrupos.

4. Índice numérico

Registro de artículos nuevos y de artículos suprimidos

La última ficha de cada juego se destina siempre al índice numérico del catálogo. El índice se presenta en forma de tabla y está dividido en las columnas siguientes: "Art nr", "Gr", "Sida" y "Koord". Los números de artículo siguen el orden numérico. El número indica el grupo, la página y las coordenadas de catalogación del artículo de referencia. El índice numérico se utiliza cuando sólo se conoce el número del artículo y se desean otras informaciones para el pedido.

Al renovar el catálogo (cambio de un juego de fichas), todos los artículos que después de la última edición han sido incluidos o excluidos, se relacionan en la lista. Esta lista sigue el orden numérico de los artículos que contiene, con mención del número de la página y de las coordenadas que les corresponden, y está situada después del índice ordinario, bajo los títulos respectivos de "Nya artiklar" (nuevos artículos) y "Utgående artiklar" (artículos suprimidos).

- La línea horizontal de la ficha 3-J 02

Todas las páginas de texto y todas las referencias a página van acompañadas del número de coordinación.
