MODEL 900

Subject: TYRES FOR ALL MODELS

The tyre sizes that are fitted to all SAAB models are not always stocked by Factors, because of this, Dealers have experienced problems in obtaining various tyre types and sizes.

To simplify this matter, we are listing below the source of supply for all the tyres that are fitted to the SAAB range, together with the telephone number and head office of each tyre manufacturer, who can be approached in the event of your local wholesaler not being able to assist with any particular size.

Some tyres are held in stock at N'pton. Please contact Parts Department to enquire whether we can supply, particularly the more unusual sizes.
